

## Maintenance Shaft Covers

Available in either Class B (Cover with concrete surround) or Class D (Cover & frame only)

- 360mm opening
- Water & Gas sealed
- Complies with AS3996-2006

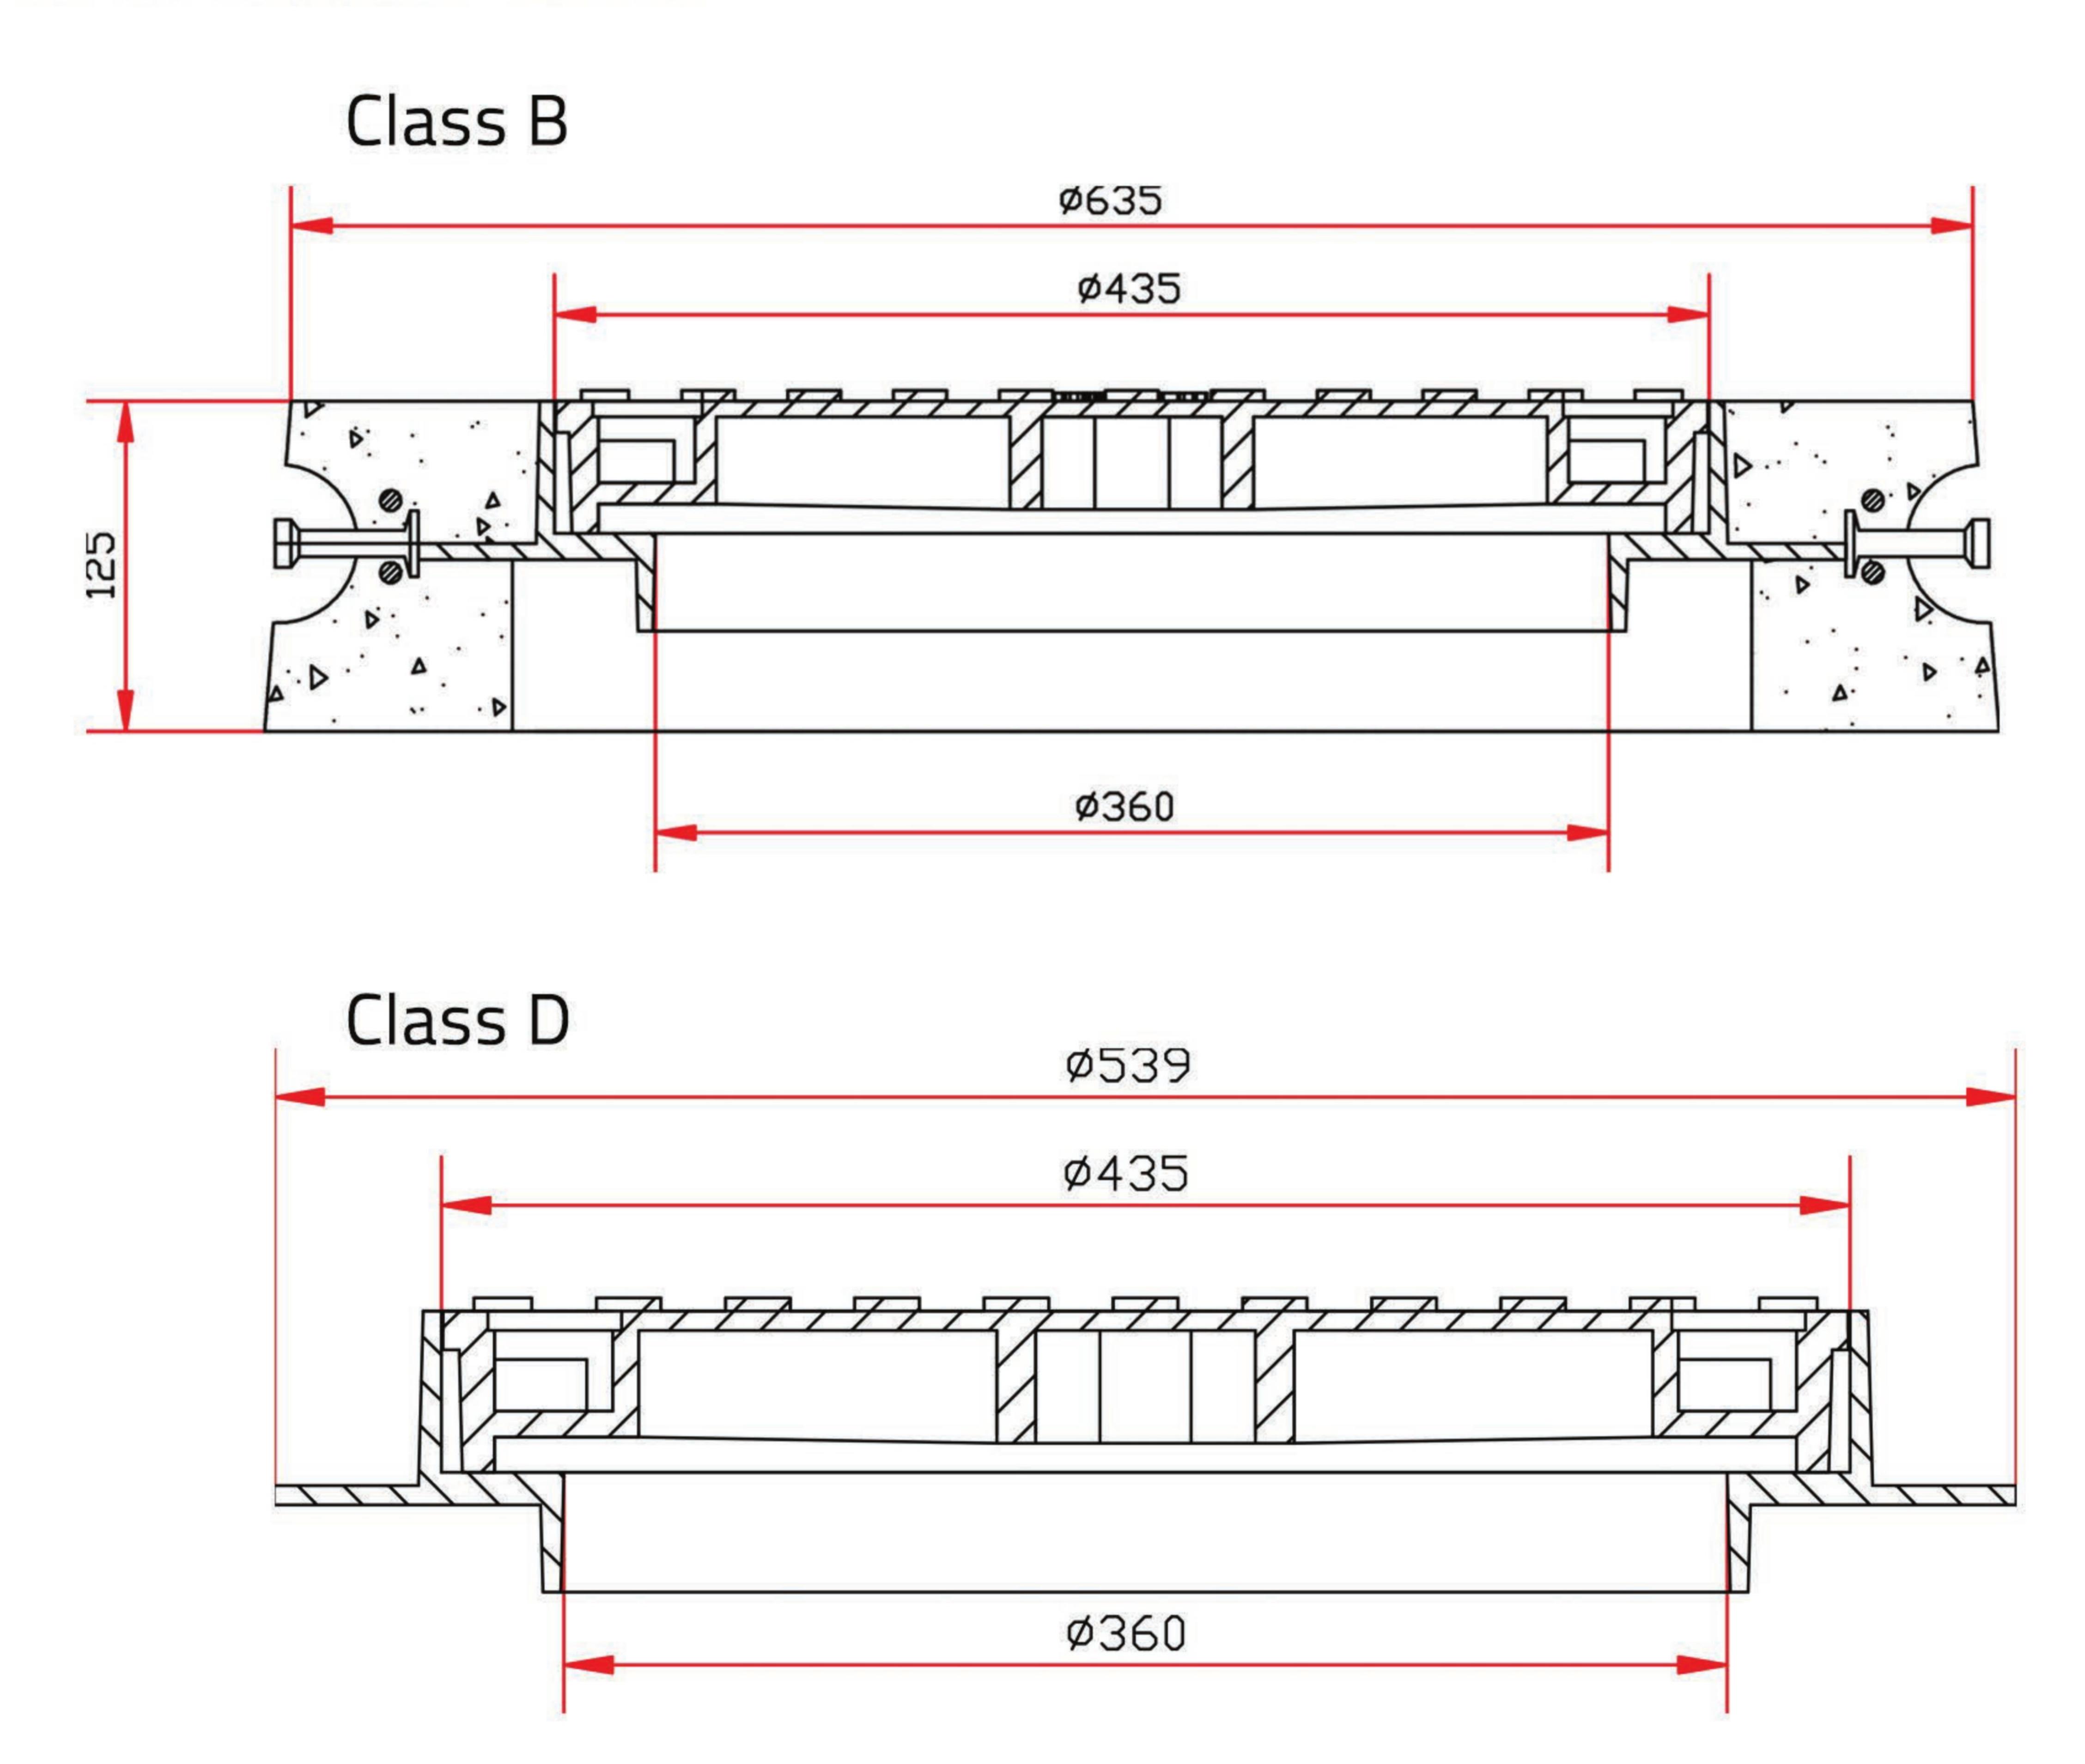

Aymroo Maintenance Shaft Covers are used in conjunction with Aymroo Sewer Maintenance Shaft Systems and are designed to allow sewer inspection equipment.

The cast iron cover and frame are available in two configurations, 'Class B" (concrete surround) which is used in pedestrian traffic areas only and 'Class D" (cover and frame only) which is rated to 140kN suitable for trafficable areas.

Both covers have a clear opening of 360mm to allow access to the MS riser and are water and gas tight to stop water ingress, they also conform to the other specific requirements of AS3996-2006.
